Линия мебели MULTIFOOD.

Технические характеристики

DESIGN YOUR PLACE

Thousands of ideas and uses for your place. Define a project your way, think about the products you want to display, organise your day, imagine the distinctive feature you want to give your business.

With the Multifood program, Frigomeccanica is able to satisfy all your needs by selecting from its wide production range those articles that best meet the requirements of your projects while conveying them an image consistent with your personality. Tell us your branch and we will provide you with the right place.

ultifood bar counter and multi-use counter with low glass in gloss Alaska white, white distressed Carrara marble, Alukuadro lamp and structures.

A low-voltage, high-luminosity overhead light with white LEDs can be fitted on multi-use counters, on request. The furniture structures are made of polished aluminium and stainless steel.

In the multi-use counters, it is possible to insert refrigerated surfaces with various types of refrigeration, with gastronorm and euronorm sizes or dry hot surfaces and bain-marie containers.

Multifood multi-use counter with low glass in Oslo larch wood. Off-white background rear counter shelving, inserts and structures made of Oslo larch. Alukuadro lamp and furnishing items. Walls with Gallery tiles and lit shelves. Stainless steel worktops.

The refrigerated surfaces may be used for any kind of food. The cold/hot function may also be featured on the same module to change the working temperature during the day.

The bread and roll baskets are available in various sizes, all with crumb gatherer and straight or tilted mounting option.

The dry hot surfaces may also be created in black glass in addition to the traditional stainless steel, and are controlled by a programmable unit. The bain-marie unit is available with containers or with perforated surface for trays or oven dishes to be laid on.

Wall unit equipped with lit shelves and Gallery "Trama" gloss white tiles, back panel in wengé wood. Alukuadro gloss aluminium tables.

Multifood multi-use counters made of Oslo larch wood.

Alukuadro overhead light with custom graphics.

Elettra tall display cabinets for ice-cream and pastries, Multifood bar counter in gloss Alaska white with white distressed Carrara marble, Multifood rear shelves without ceiling panel, white wall cladding, structure and inserts made of Oslo larch wood. Alukuadro furnishing items.

The Multifood furniture program envisages the insertion of the entire Frigomeccanica display cabinet range.

VIVA display cabinet, refrigerated and neutral with corners. Front made of natural ash, Multifood rear shelves with ceiling panel. Off-white wall cladding, structure and inserts made of natural ash. Alukuadro aluminium structures.

The Viva display cabinet series includes a wide range of modules with numerous lengths and corners, refrigerated and neutral. It also includes surfaces for pizzas, dry hot containers, bain-marie and modules for bread.

The bread baskets, with front wall made of extra-clear glass for maximum product visibility, have a stainless steel top and an extractable crumb gatherer.

The closure of the Viva display cabinet is ensured by plexiglass doors sliding on linear modules. The opening of the front glass is downwards with a safety stop position. Stainless steel worktop.

Viva display cabinet with gloss Alaska white front and LED lit plinth (optional), Multifood multi-use counter with tall glass, made of Oslo larch wood with surface made of nocte cosmos agglomerate. Multifood shelving made of Oslo larch wood with lit ceiling panel made of opal methacrylate.

The glass of the multi-use counters may have two heights and be neutral, heated or refrigerated. The load bearing structure is made of gloss stainless steel tubes while the glass can be dismounted for cleaning and replacement. The backlit ceiling panel may be customised with graphics on request.

The design of the Multifood series is studied to harmoniously combine together all the counters and display cabinets proposed in various colours and woods.

Surfaces for pizzas, neutral or hot surfaces and bain-marie units with gastronorm containers or with perforated surfaces may be inserted in the display cabinets.

The Multifood may be combined in a host of solutions: neutral or refrigerated bases and baskets of various sizes. The upper part may have a ceiling panel with spotlights, made of backlit shaped methacrylate or with flat backlit panels with graphics.

Vetrina mod. Basic alta con frontale in vetro laccato nero, banco cassa in essenza larice Oslo e piano in agglomerato nocte cosmos. Retrobanco scaffale mod. Multifood, struttura in essenza larice Oslo, fondo in color grigio grafite. Pannelli superiori retroilluminati con grafica personalizzabile.

Basic tall display cabinet with front made of black lacquered glass, cash desk made of Oslo larch wood and surface made of nocte cosmos agglomerate. Multifood shelf rear counter, structure made of Oslo larch wood, background in graphite grey. Backlit upper panels with custom graphics.

The shelving of the Multifood series can be combined with both the bread baskets and straight shelves with inclinable bracket to display with baskets or directly on the surface of the shelves. The upper backlit panels may be customised with graphics and images.

The Basic display cabinet is suitable for small environments where the reduced depth of the cabinet and the greater height of the glass allow the product to be displayed on more shelves. The shelves are not refrigerated.

Ambra display cabinet with white front profile, front made of Oslo larch wood, Multifood shelving made of Oslo larch wood and lit opal methacrylate ceiling panel. Multifood tall glass multi-use counter with surfaces made of nocte cosmos agglomerate.

The Ambra display cabinet with curved glass is available in the same lengths, corners and combinations as the Viva display cabinet, though with a softer look. The opening of the glass is upwards with hydro-lift pistons.

irage Squared counter for salami, cheese and meat. Front made of wengé wood, white side panel with wengé insert. Multifood rear counter with wengé structure, ash grey wall cladding, Sven refrigerated module. Fjord Squared Market wall for dairy products with white profile and wengé front.

The Mirage Squared counter is the top of the range for Frigomeccanica food / butcher counters. It is available in the De Luxe version (see photo) with top reversible through hydro-lift pistons for excellent cleaning inside the sink and an easy water outflow, through the suitable discharge connected to the sewer. The tech version features display tops that can be manually removed. Both models have glass that opens upwards with pistons and ventilated refrigeration suitable for salami, cheese or meat. A refrigerated cell with doors or drawers is available on request (to be fitted under the counter).

Retrobanco Multifood con essenza wenguè e modulo refrigerato Sven.

Multifood rear counter with wengé wood and Sven refrigerated module.

Multifood rear counter shelving made of wengé wood, ash grey wall cladding with Sven refrigerated module, stainless steel worktop. Sven is a refrigerated module that can be channelled with the Multifood shelving, which may feature the motor both inside and outside and has shelves or salami hanging structures. On the shelves it is possible to mount surfaces for overhanging or surface mounted food slicer.

The refrigerated wall display Fjord Squared cabinets are available in various lengths and set-ups: for dairy products, fruit and vegetables or pre-packed meat. The Fjord Squared Market model has a remote motor and 6 display surfaces. The Fjord Squared Self model has an incorporated motor and 5 display surfaces. The lower front panel may be customised with the colour or the wood of the Multifood program.

Polo Squared counter with ash grey front, cash desk ends made of wengé wood, shelving and Multifood rear counter with structure made of wengé wood, ash grey wall cladding, wengé self service shelf, Alukadro table with wengé top.

The Polo Squared model is available with static or ventilated refrigeration and with glass that can be opened upwards with hydro-lift pistons (VDP model) or downwards (VDB model) with safety stop position. Refrigerated undercounter cells with magnetic doors come as standard with this model. As with all modules in the Multifood program, the front can be personalised.

Wengé worktop and stainless steel hanging structure. The spotlights of the ceiling panel are LED.

Multifood shelving and gondola with corner ends in Oslo larch colour, graphite grey wall cladding, panels made of backlit methacrylate with custom graphics, refrigerated Fjord Squared wall, fruit and vegetable fittings, Sven Fly wall.

The Multifood shelving program includes market accessories such as shelves for fruit and vegetables, baskets for self service sales and gondola display units.

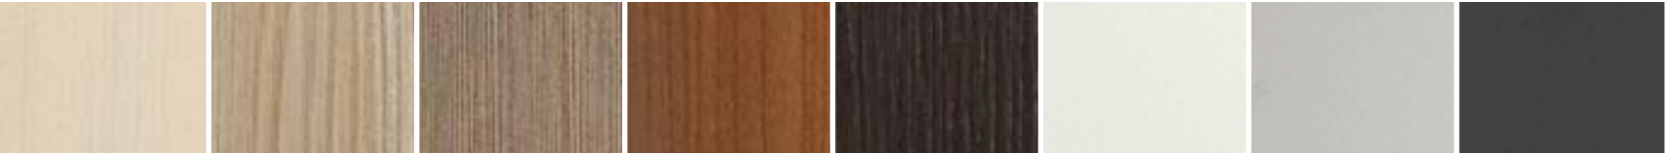

The Sven Fly refrigerated wall made of Oslo larch is available with incorporated or remote motor. It is a free installation reduced-dimension display unit of 79 cm depth and suitable for salami, dairy products and fruit and vegetables.
